SUMMARY

Motivated Software Developer focused on building efficient, user-focused applications and practical digital solutions. Skilled in software development, problem-solving, and system design, with a strong emphasis on clean, reliable, and maintainable code. Passionate about continuously improving technical skills through hands-on projects and real-world experience.

PROJECTS

VisiTrack: Facial Recognition Attendance System

Jan 2026 - Apr 2026

Software Developer

- Developed a full-stack application using Next.js, TypeScript, PostgreSQL, and Python FastAPI.
- Built a facial recognition pipeline using InsightFace, OpenCV, and ONNX for real-time attendance tracking.
- Implemented webcam scanning, image upload workflows, and attendance monitoring features.
- Developed backend APIs and database schemas for managing students, classes, and attendance records.
- Integrated Supabase storage and optimized frontend performance using React Query and debounced inputs.

WORK EXPERIENCE

Software Developer Intern

Sep 2025 - Nov 2025

Right Apps Incorporated

- Contributed to the development of a full-stack Point of Sale (POS) Management System, working on backend and back office functionalities.
- Assisted in developing a GraphQL backend, implementing authentication and role-based access control, and working with relational databases and business logic.
- Contributed to a web-based back office application and gained hands-on experience in full-stack development, API integration, and database design.

EDUCATION

Bachelor of Science in Computer Science

August 2022- June 2026

University of Cebu Main

- Consistent Dean's Lister
- Academic Scholar
- Relevant Coursework: Database Systems, Machine Learning, Software Engineering

CERTIFICATES

Career Service Professional Examination Passer | Civil Service Commission

May 2026

TOPCIT Level 3 Passer | IITP

Dec 2025

Meta Front-End Developer Professional Certificate | Coursera

Oct 2025
